Transform the industry putting people's health and wealth at the centre

Our Mission

Learn from other people's mis-takes and share the wisdom

Our Values

Be Courageous.

Resvita

Meet some of the people behind the brand.

A perfect blend of people, with industry experience, know-how and knowledge, in partnership with others outside of the industry, who are experts in their field, like business foundations, frameworks, health, mindset and innovation, allows Resvita to solve the problems tradies experience building their businesses and change the industry.

THE PROBLEM

THE EARLY YEARS FOR MOST TRADIE BUSINESSES CAN BE TRIAL AND ERROR.

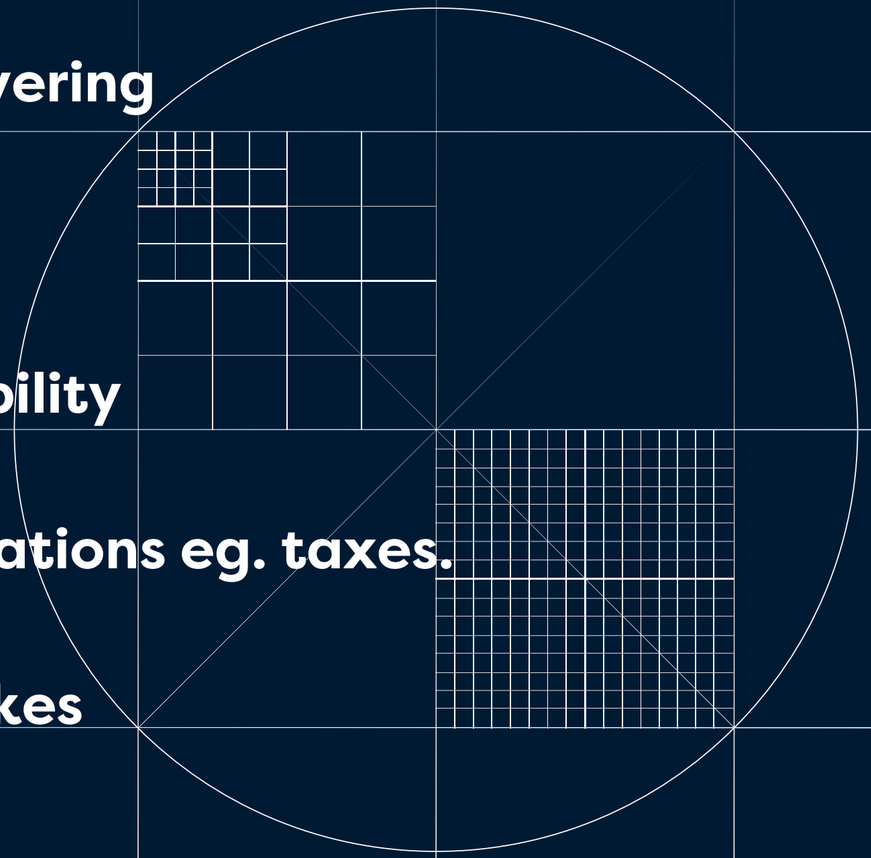

Overcommitting and underdelivering

Lack of support

Lack of business growth capability

Not putting cash aside to pay future obligations eg. taxes.

Not learning from the mis-takes

Living the same story creates a similar result.

So why do we choose to keep repeating the same mistakes?

Change and innovation cannot occur while we hold on to the same stories and beliefs that have allowed the system to be broken in the first place.

You have to work people hard or they will slack off

What if you had a company where employees had shared values and wanted to see the company succeed? What if they connected that your success was their success, and you could give them tangible ways in which to know this?

Winning quotes and buying work is just about pricing and delivery

What if your company had such a strong reputation and set of living values that you built strong ongoing partnerships that fed you work and made it easier to win quotes without eating into your profit?

Tradies only care about their pay check

What if you showed your employees that work is about so much more than just getting paid? We spend a good third of our lives at work... so it makes sense that if we want to live a great life, we have to get satisfaction and happiness up while we work, not just outside of working hours.

If we continue to do what we have always done, we will think, feel, and act in old ways. What if we could re-imagine the industry and begin to think differently?

THE SOLUTION

A COMMUNITY APPROACH TO GROWING A SUCCESSFUL AND SUSTAINABLE BUSINESSES THAT BUILDS HEALTH, WEALTH, AND LIFESTYLE.

A Platform to connect, learn, and trade, with the added ability to partner, build, and grow together. Rapidly moving toward leaving the industry transformed at its core.

Raising the standard in trade based businesses whilst improving its peoples health, wealth and lifestyles.

Our Story

We came from where you are - so we get what you're going through.

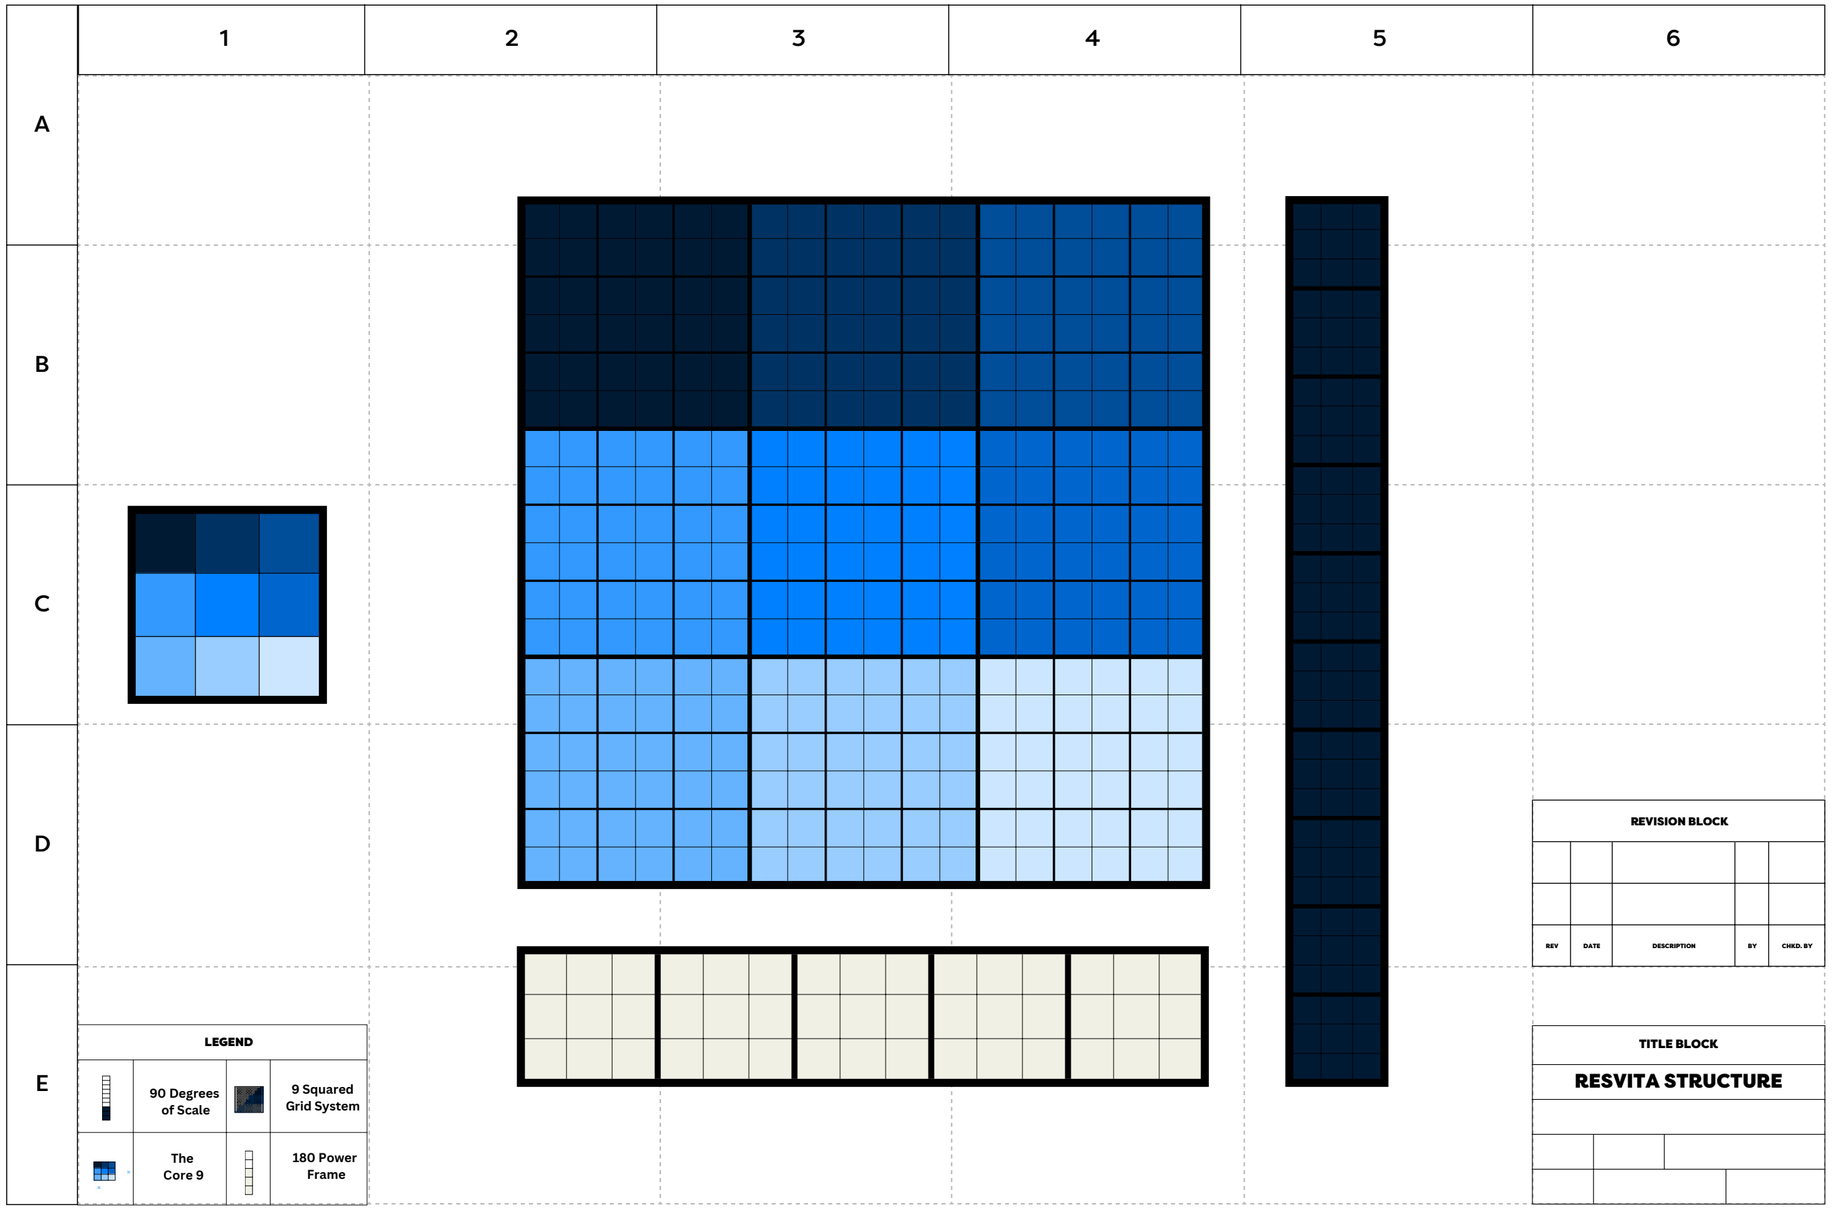

Resvita is a culmination of years of extensive research and real lived experience in what it takes to make a trade based business successful. Resvita was born from the desire to change the way tradies are building their businesses. Josh is the founder of 365 Property Services and it is worthwhile sharing the story of 365's history and key learnings.

365 Property Services grew too great heights in a very short period of time. **It quickly became very successful in generating work and in the first 18 months generated over $3M worth of work.** To support the fast growth - the excess cash was reinvested back into the business. Unfortunately in the early days they did not have the knowledge of how tax worked and (as we now know) like many other tradie businesses, it caused the business to collapse.

Josh then rebuilt the company, and by 2020, 365 Property Services grew to 68 employees over a 2 year period, and again due to a lack of culture and capability of the team, the business fell apart again and downsized to 12 people. During his time as director of the company Josh grew and collapsed the business back multiple times, **each time learning new skills and analysing what had gone wrong.**

Josh then began to help other businesses, coaching small business owners in the construction industry. **He began to see patterns of where people were going wrong and making the same mistakes as others that have ended up in extreme debt and in some cases needing to fold their business.**

While Josh has an extensive background in solving construction company problems, Tim and the other people behind the brand have expertise in business foundations, frameworks, innovation, health, wealth and lifestyle creation. Combining this with Josh's industry know how **has been a game changer in what we are able to offer people, and through this partnership Resvita was born.**

Creating more confidence that what we are doing matters!

Our Programmes

START RIGHT (6 months)

This programme is designed for people like Paul the Painter. **Taking Sole Traders to a team of 4 and around $700K a year.** Moving them from Stressed out and overloaded and overwhelmed to feeling they can be successful,

Getting them close to being off the tools for good! Now, doing the quoting, running jobs and building the business. Giving them a great base understanding of what it takes to start and run a business. **Really helping them avoid the costly mistakes everyone makes when they start** so they don't have to use the resources to make, learn and fix them but use them to build the business they set out too in the first place.

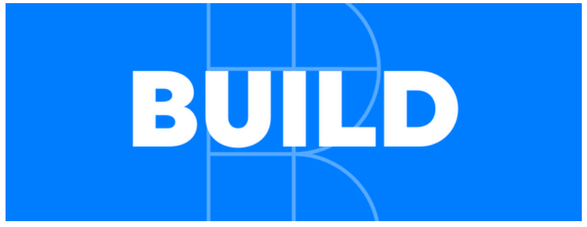

GROW 1.0 (12 months)

This programme is designed for people like Tom the Plumber. **Taking small teams of people** and growing their knowledge, know-how and about themselves**. To become PROFESSIONAL BUSINESS RUNNERS. Allowing them to grow to a team of 12 and around $1.8m in revenue.**

They get the Step-by-step blueprint **to Grow a 7 Figure trade business (Most Importantly) AGAIN AND AGAIN** if they choose. We are moving them from **Chaos to Control.** This is always happening in business, when they start to hire managers and admin people, fires start and they don't yet have the knowledge or leadership skills on how to put them out so more chaos spreads and they start to work longer and longer hours to compensate. So we teach them the Core 9 Blueprints to **give them CONFIDENCE on how to deal with the issues which results in FREEDOM.** Getting them to a business where there admin and accounts are taken care of AND either sales or projects is taken care of (Either one they like less).

BUILD 2.0 (12 months)

This programme is designed for people like John the Carpenter. Taking teams of around 12 people and **BUILD the structures to support teams of 24 and around $5.1m in revenue.** They get the EXACT blueprint on how to do this through the 90 degrees of scale.

This takes them through how to build and grow culture, rhythms and rituals in reporting and leadership, procedures to create success without them having to oversee everything. **WORKING SMARTER NOT HARDER.** What happens at this stage is that, either they want to grow their business more and are scared of losing everything they built, or TRY and start working harder and make less even though they have a bigger company. **This programme gives them CLARITY on what to do to go to the next level.** Taking them from feeling Trapped yet again (They might have felt Free in the GROW phase and lost it as they have grown because they are still trying to DO everything instead of starting to build a team and systems to work for them. At the end of this programme they have a team of 24, **they have every position filled and be in the General Managers Role of their company over seeing everything.**

PARTNER 3.0 (12 months)

This programme is designed for people like Steve the concretor. Taking teams of around 24 people and **now PARTNER to create teams of 48 and beyond,** generating around $10m++ in revenue. They get the leverage points to maximise their ability to **PREDICTABLY Generate $10M+ Trade businesses.**

That are **under FULL MANAGEMENT**. Moving from sometimes a CONTROLING leader **to INSPIRATIONAL FIGURE.** And creating more than just money, but also enjoying the feeling of fulfillment of impact and Legacy. Moving from trying to manage everything and everyone to **creating businesses, cultures and environments to allow people to do their best work.** And still having a spot as the CEO of their 'empire' should they choose too.
